## SRNO PN 1026

### Core Slabbing Saw, manual, stroke 1 meter, SS-316

Stainless steel Core Slabbing Saw with capacity of 1 meter

#### ADVANTAGES

- Robust and durable stainless steel Slabbing saw with capacity axial cuts of 1+ meter.
- Fixture for axial and radial cut of whole core.
- Built-in circulation pump utilizing different cooling fluids such as water, brine, oil etc.
- Strong 10 H.P. 3-phase motor and strong, adjustable fixtures ensure clean and precise cut.
- Large feeding wheel is used so operator does not have to touch the core by hand.
- Easy to clean and perform maintenance on.
- Easy high adjustment of saw blade.
- Tray with trap for re-cycling cooling fluid.

#### SPECIFICATIONS:

Frame:	Welded stainless steel
Motor option-1:	10 H.P./7.5 kW 3-phase 400VAC
Motor option-2:	10 H.P./7.5 kW 3-phase 230VAC
Blade size:	Ø500mm x 30mm hole
Blade safety protection:	Plexiglass enclosure
Max Stroke length:	110 cm
Max cutting depth:	18 cm
Type of cut :	Axial and Radial
Type of fixtures:	Adjustable clamps
Type of feeding:	Manual (large feed wheel)
Type of cooling:	Water, brine, oils
Physical size:	318 cm x 118 cm x 190 cm
Weight:	325 kg

#### CERTIFICATES:

Certificate of Conformity:	YES
Test (IAT) Certificate:	YES
Traceability List:	YES
CE Marked:	YES

#### ACCESSORIES:

Sawblades for different type of core materials  
Sawblades for aluminum and fiberglass liners  
Spare parts such as rollers, chain and ball bearings  
Upgrade kit for automatic feeding
